

THANK YOU FOR PURCHASING THE VASARI STEREO CARTRIDGE.

PACKAGE CONTENT

- | Cartridge body
- | Set of head-shell fixing 2,5mm screws (non-magnetic)
- | 2mm Allen Wrench
- | User Manual

VASARI GOLD MM Phono Cartridge

Output level 4mV	Diamond Elliptical
Frequency response 15 - 25000Hz	Diamond size 7.5×15.5µm
Impedance 1000Ω	Coil Wire Copper
Compliance 10×10-6cm/dyne	Magnet Alnico
Channel separation >22dB	Hole-diamond distance 9mm
Channel balance <2dB	Total weight 9.5g
Cantilever Aluminium	Inductance 500mH

VASARI RED MM Phono Cartridge

Output level 4mV	Diamond Conical
Frequency response 15 - 25000Hz	Diamond size 15.5µm
Impedance 1000Ω	Coil Wire Copper
Compliance 10×10-6cm/dyne	Magnet Alnico
Channel separation >20dB	Hole-diamond distance 9mm
Channel balance <2dB	Total weight 7g
Cantilever Aluminium	Inductance 500mH

BEFORE USING

- 1 The stylus is very delicate and applying excessive force to the stylus, such as finger pressure, can result in damages. Handle the cartridge with the utmost care.
- 2 A powerful magnet is used in the cartridge. Operating steel/magnetic tools or similar items near the cartridge will exert a force on the magnet and may result in damages to the stylus and the cartridge.

VASARI

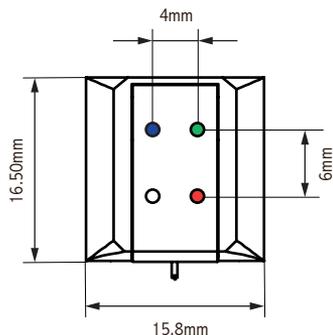

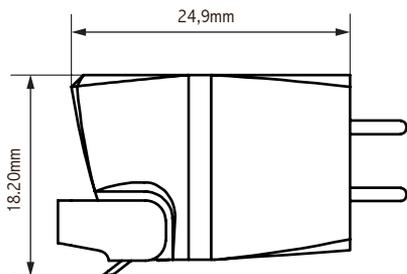

The Vasari Series represents quality and technology, another step on our quest to design instruments of audio reproduction that we love ourselves and use every day at home in our own audio system. The innovative and beautiful design of the Vasari benefits from 25 years of experience in engineering High-End audio components. Designed with computer modelling, the Vasari Series achieves the peak performance of the MM technology.

The high-damping structure, made of superior quality materials, and the ultra-rigid cantilever in Aluminium make the Vasari a superb tracker, a characteristic that allows our custom diamond stylus to extract all the information from the vinyl groove so that your system can perfectly recreate the musical event in all its details and complexity.

The Vasari is available in two models, Gold and Red.

The Vasari Gold features a Duraluminum body and an elliptical diamond tip. The Vasari Red features a special ultra-dampening Photopolymer Resin body that is 3D printed and a conical diamond tip. With both models delivering an output level of 4mV, they are the ideal cartridges for our Valore 425 Plus and Lite turntables thanks to their lightweight bodies.

Completing our range of cartridges, the Vasari Series is the best MM design we have ever made, offering a new and engaging musical experience.

SET-UP

Mount the cartridge on the tonearm head-shell using the supplied Allen Wrench and one set of the 2,5mm screws. Adjust it to the stylus position suggested for your turntable system (see **Fig.1**).

The output terminals are colour coded for ease of use (see **Fig.2**). Please ensure to connect the terminals to the colour matched head-shell lead of the tonearm.

VASARI GOLD

Suggested load

47K Ω

Suggested tracking weight

2g

VASARI RED

Suggested load

47K Ω

Suggested tracking weight

2g

NOTE

Applying heat to the output terminals of the cartridge will cause internal damage to the cartridge.
